COIN  
**\$GRAND**

SOLANA ECOSYSTEM

# \$Grand:

## The Pumpfun Meme Coin on Solana

### Introduction

Welcome to the world of Grand, the Solana meme coin that prides itself on having no tech, just pure meme joy. Grand is here to prove that the best things in life are simple - like a good meme.

GRANDs a memecoin project built on the Solana blockchain. Our primary goal is to create an ecosystem that captures community interest, providing fun and value. Rather than focusing on technological complexity, we concentrate on enhancing user engagement and interaction through NFTs.

## Disclaimer

This white paper is intended for entertainment and information purposes only and does not constitute investment advice. Investing in meme coins like Grand involves significant risk and speculation.

## Opensea NFT Store

GRAND plans to allocate 50% of the revenue from NFT sales to token burning, reducing total supply and potentially increasing value, while the other 50% will go towards sponsorship agreements to enhance the visibility of our projects and promote art and technology to broader audiences.

By purchasing our NFTs, you will not only acquire unique collections but also contribute to these two vital initiatives.

## The Grand Story

In an era where tech is king, Grand stands out by embracing the meme culture to its fullest. Born from the internet's love for laughter, Grand's story is one of communal joy, where each coin transaction celebrates the art of the meme.

## Why Grand?

- No Tech, All Fun: Forget about complicated tech; Grand is all about the fun of memes.
- Community-Driven: Grand's value and growth come from its community's creativity and engagement.
- Viral by Design: With a focus on memes, Grand is designed to spread rapidly across social platforms.

# Tokenomics

- Total Supply: 1.000.000.000 GRAND
- Distribution:
- 25.00% of pool/supply locked
- 20%Airdrop to the Meme Community
- 35% for Meme Contests andPromotions
- 20% Team and Meme Creators

## Revenue Distribution:

The distribution of revenues generated from our NFT marketplace is as follows:

- **50% Burn:** This is aimed at reducing the token supply and increasing the token's value in the long term. A portion of GRAND tokens will be burned using half of the revenue from NFT sales.
- **50% Sponsorships:** The remaining revenue will be utilized for community events, artist support programs, collaborations, and overall project development through sponsorships and marketing activities. This approach targets growth of the project and enhancement of community engagement.

# Empowering Amateur Sports Schools

- Support for Amateur Sports Schools

## Introduction

- \$Grand focuses on supporting amateur sports schools to aid in the development of young athletes.

## Support Programs

- Education, equipment, facility improvements, motivation.

- Q1 2026 Listing on major exchanges (The target of being listed in the same month after capturing early volume and increasing price rapidly is fixed.)

## Conclusion

Grand isn't about changing the blockchain or introducing new tech; it's about changing how we laugh, connect, and share through memes. With no tech to boast, Grand relies on the pure, viral power of memes to grow, showing that sometimes, the simplest ideas can bring the most joy.

## Note:

This white paper is a playful, light-hearted take on what a meme coin without any technological foundation might look like. Remember, the success of such projects hinges on community enthusiasm and the unpredictable nature of meme

 Humanitarian Donations and Income Generating Sports Support Programs will be active.
